of tough, long
lasting tapes

Easy to carry
with comfortable
rubber grip

PT-1010 Electronic Labelling System

A better way to get organized.

Label anything, anywhere

The PT-1010 is a portable handheld labeler with a comfortable rubber grip. Its size and functionality makes it easy to use anywhere. It features a large 12 character LCD display with guidance messages, and dedicated number keys for easy numerical input.

Feature packed

The PT-1010 features 2 line printing, and allows you to print your text with 6 frame options, 6 built-in auto formats and up to 83 symbols. The Time & Date function lets you print labels for leftovers and other time sensitive items.

A variety of tough long lasting labels

With a vast selection of sizes and colours to choose from, getting organized has never been so easy. Brother's laminated tapes (TZ tapes) consist of six layers of materials, resulting in thin yet extremely strong, labels.

Characters formed with thermal transfer ink are actually printed on the underside of a laminate. Sandwiched between two layers of PET (polyethylene) film, the characters are virtually indestructible. Information on our variety of TZ tapes' colours and sizes is available on brother.ca.

Service and support are part of the package

We are dedicated to comprehensive service and support. We provide a 1 year limited parts / 90 days labour warranty backed by our nationwide network of authorized customer-care centres as well as machine lifetime toll-free technical support, to help you get the most out of your P-touch®.
